For graduation with an Associate in Science (A.S.) Degree with a major in Drafting-Architectural:

Minimum Unit Requirements: Any course that appears on a curriculum guide and the General Education Pattern (Plan A) may fulfill both major and general education requirements (Approved by College Curriculum Committee Spring 2012). For this degree, complete a minimum of 60 units in courses numbered 1-599. Please note that additional elective units may be required to meet this minimum based upon courses selected to fulfill General Education for the Associate Degree.

> **Drafting-Architectural Major:** 24 units General Education/A.S. 19 units Minimum Total Units: 60 units

- Scholarship: Maintain an overall grade point average (GPA) of 2.0 ("C" average) based on all accredited college work applied to the degree, no matter where completed. For this field of concentration, complete each course above with a grade of "C" or better, or "P" if course is graded on a P/NP basis.
- Residence for the Degree: Complete at least 30 units of the required 60 in residence at LBCC, or complete in residence at LBCC at least 20 units within the last 30 units of work applied to the degree.
- Residence for the Field of Concentration: Complete fifty percent (50%) or more of the unit requirements for this field of concentration in residence; this means at least 12 units of the required 24 must be completed at Long Beach City **College**. Credit earned by exam, where applicable, may be included.
- General Education and Proficiency Requirements: Complete the required A.A./A.S. General Education and Proficiency requirements*, otherwise known as "Plan A". For Plan A requirements, refer to the general catalog or view it online at http://osca.lbcc.edu.

Career Opportunities

Students learn entry-level job skills in architectural drafting.

This **Advanced Skills Certificate of Achievement** will prepare students for an advanced position as an architectural drafter or senior draftsman in a variety of design professional setting and will serve as a foundation for specialization.

This Associate Degree will prepare students for a design-related career.

Program Mission and Outcomes

To create an educational environment where students can achieve their individual goals by providing the necessary knowledge and skills to enter the design field of their choice by using the latest technologies and industry trends.

Outcomes:

- Students develop career awareness, planning, employability skills, work habits, and foundation knowledge necessary for success in the workplace.
- Students will be able to establish mastery of basic knowledge and skills and apply advanced technologies relevant to entering the architectural drafting and design field at an entry or advanced level.
- Students possess the necessary technical knowledge and communication skills to identify, articulate and solve
 problems pertaining to the built environment and perform tasks required within the architecture and/or environmental
 design professions.
