

## **EMERGENCY PROCEDURES GUIDE**

### **PREFACE**

This Emergency Procedures Guide will serve as a contingency guide for the Long Beach Community College District in case of campus emergencies. While the guide does not cover every conceivable situation, it does supply the administrative structure with sufficient guidance necessary to address most emergencies of significant size.

The administrator(s) whose legal responsibility and legal authority it is to implement operational procedures found herein are required to observe such policies and procedures as described by the State Emergency Services Act and according to the Standard Emergency Management System (SEMS), with consideration for conduct within the framework or District guidelines. Any exceptions to these crisis management procedures will be conducted by, or with the approval of those college administrators directly coordinating the emergency operations.

All requests for procedural changes, suggestions, or recommendations, are to be submitted in writing to the College Safety Officer for technical review. All changes recommended by the Safety Officer will be submitted in writing to Administration for evaluation and adoption.

### **BELOW ARE THE REPRINTED GOVERNMENT CODE SECTIONS REGARDING SCHOOL EMPLOYEES, AND THEIR LEGAL REQUIREMENTS IN CASE OF DISASTERS.**

#### **3100. DECLARATION: PUBLIC EMPLOYEES AS DISASTER SERVICE WORKERS**

It is hereby declared that the protection of the health and safety and preservation of the lives and property of the people of the state of the effects: of natural, manmade, or war-caused emergencies which result in conditions of disaster or extreme peril to life, property, and resources, are of paramount state importance requiring the responsible efforts of public and private agencies and individual citizens. In furtherance of the exercise of the police power of the state in protection of its citizens and resources, all public employees are hereby declared to be disaster service workers subject to such disaster service activities as may be assigned to them by their superiors or by law.

#### **3101. DEFINITIONS**

For the purpose of this chapter the term "disaster service worker" includes all public employees and all volunteers in any disaster council or emergency organization accredited by the California Emergency Council. The term "public employees" includes all persons employed by the state or any county, city, city and county, state agency or public district, excluding aliens legally employed.

**IN ACCORDANCE WITH THE CURRENT LAW: ALL EMPLOYEES OF LBCCD WHO ARE ON DUTY AT THE TIME OF THE OCCURRENCE AND ARE ASSIGNED A SEMS TASK OR FUNCTION, ARE REQUIRED TO REMAIN ON CAMPUS DURING AN EMERGENCY AND ASSIST IN THE DISASTER RESPONSE.**

## **MAJOR EMERGENCY GUIDELINES**

### **1. PURPOSE**

The emergency procedures outlined in this guide are designed to enhance the protection of lives and property through effective use of the district resources. Whenever an emergency affecting LBCCD reaches proportions **THAT CANNOT BE HANDLED BY ROUTINE MEASURES**, the Superintendent-President (or appropriate designee) may declare a state of emergency, and these contingency guidelines may be implemented.

There are two types of emergencies that may result in the use of this plan; they are (1) large scale disorder, and (2) large scale disaster. Since an emergency may be sudden and without warning, these procedures are designed to be flexible to adapt to contingencies of various types and magnitudes.

### **2. SCOPE**

These procedures apply to all personnel, buildings, and grounds, owned and operated by the Long Beach Community College District, and sites leased and operated by the Long Beach Community College District.

### **3. TYPES OF EMERGENCIES**

Types of emergencies covered by this manual are:

1. Fire
2. Earthquake
3. Chemical/Chlorine or Radiation spill
4. Explosion, Downed Aircraft (craft) on Campus
5. Bomb Threat
6. Civil Disturbances or Demonstrations
7. Utility Failure
8. Violent or Criminal Behavior
9. Medical and First Aid
10. Media Relations
11. Psychological Crisis
12. Active Shooter Event
13. Lockdown
14. Shelter In Place

In the event of a disaster, all employees not directly involved with rescue or safety operations will assemble on the lawn in front of the main Administrative Office. The Superintendent-President (or appropriate designee) will advise employees of the situation and what duties will be expected of them.

### **4. ASSUMPTIONS**

This Emergency Operations Plan is predicated on a realistic approach to problems likely to be encountered on campus during a MAJOR EMERGENCY OR DISASTER. The following are general assumptions:

1. An emergency or a disaster may occur at any time of the day or night, weekend or holiday, with little or no warning.

2. The succession of events in an emergency is not predictable. These support plans and operational guidelines will serve as templates and will require field modification to meet the demands of the emergency.
3. While disasters may affect residents in the geographical location of our campuses, City, County, and Federal emergency services may not be available. A delay in off campus emergency services may be expected UP TO 72 HOURS, depending on the gravity of the disaster and the degree of saturation to our local area SEMS/NIMS network.
4. A major emergency may be declared if information suggests that such a condition is developing or is probable.

**5. DECLARATION OF CAMPUS STATE OF EMERGENCY**

The authority to declare a campus state of emergency rests with the College Superintendent-President.

## RESPONSIBILITIES

### 1. SUPERINTENDENT-PRESIDENT

The college Superintendent-President is responsible for the general direction of campus emergency operations. The Superintendent-President will establish a specific line of emergency authority composed of designated College executives. This is to include the Manager responsible for off campus classes, should the emergency occur in the evening hours or at an off campus site. The College Superintendent-President can authorize an appropriate designee to serve as an alternate in his/her place.

### 2. DESIGNATED ALTERNATE

The designated alternate is to be available for discussion and recommendation of appropriate action regarding the campus emergency.

### 3. MANAGERS/DEANS

Managers may appoint specific persons as the Building/Facility Coordinator for every activity under their control.

**COLLEGE NOTIFICATION SYSTEM**

The telephone system is the primary means of emergency notification. This system is intended for the immediate transmission of specific information regarding an emergency to all affected areas of the campus. Email, Blackboard Connect, radios, audible alarms, blow horns, electronic media and other forms of communication that are available may be used.

**1. CAMPUS EMERGENCIES**

The Campus Police Department is the focal point for the two-way transmission of official emergency telephone communications to College administrators. Each College administrator, upon receiving notification of a campus emergency, is to pass the same information along to all those departments/offices under their direction.

The police officers on duty will notify maintenance of any campus emergency as necessary, and will initiate the notification system by calling the following College administrators, as appropriate:

## **EMERGENCY EVACUATION OF CAMPUS BUILDINGS**

### **FIRE/BOMB THREAT:**

If the alarm sounds, do not panic; leave by the nearest exit or stairway. DO NOT USE ELEVATORS.

All persons will evacuate at least 150-300 feet from the building(s).

### **EARTHQUAKE**

IF YOU ARE INDOORS, STAY INDOORS.

Take precautions:

Get under a table

Stand in an interior doorway

Kneel down in a corner of the room

Hold your hands or books over your head

Avoid windows

Wait until the earthquake is over

Use stairs to evacuate, do not use elevators

Cautiously leave buildings

Watch for falling debris

If you are outside, move away from buildings and utility wires

Once in the open, stay there until the earthquake is over

**SPECIAL PRECAUTIONS MUST BE TAKEN TO INSURE THAT PERSONS WHO HAVE IMPAIRED HEARING ARE NOTIFIED AND THAT DISABLED PERSONS ARE ASSISTED AS APPROPRIATE.**

## **Disabled Evacuation**

Whenever there is a building evacuation, we must be aware of the potential needs of those who are disabled. The following information will alert you to the concerns of the disabled:

**Permanently Disabled-** Persons should prepare for emergencies ahead of time by instructing classmate, instructor or fellow staff member on how to assist them in case of emergencies.

**Visually Impaired/Blind-** Offer your elbow to these persons and guide them to a safe area. Make sure they are fully informed of the situation and what they are to do.

**Hearing Impaired/Deaf-** Communicate with a short written message or speak slowly and directly to them. Use a minimum of words, and gesture them toward the nearest exit or place of safety.

**Wheelchair bound-** Consult with the individual to establish the best course of action. If it is necessary to wait for exits to clear, stay with them or assign someone to accompany them. If stairs must be negotiated, disabled persons may find it best to leave their wheelchair behind and be carried by two assistants.

**Psychologically, Emotionally Disabled-** Give the person clear, concise instructions with a limit of one or two tasks to remember. Assign a companion, if possible!

**IE:** "Go down these stairs and leave the building."

**IE:** "Join everyone in the Staff Parking Lot."

IN ALL CASES OF FIRE.....THE LONG BEACH FIRE DEPARTMENT MUST BE NOTIFIED IMMEDIATELY!

Give your name and describe the location of the fire.

1. Know the location of fire extinguishers, fire exits, and alarm systems in your area and know how to use them.
2. If a minor fire appears controllable, IMMEDIATELY contact the Fire Department, and the Campus Police Department.
3. If an emergency exists, activate the building alarm.
4. On large fires that do not appear controllable, IMMEDIATELY notify the Fire Department and Campus Police. Evacuate all affected rooms, closing all doors to confine the fire and reduce the oxygen – DO NOT LOCK DOORS!
5. When the building evacuation alarm is sounded or an emergency exists, walk quickly to the nearest marked exit and alert others to do the same.
6. HELP THE DISABLED IN EXITING THE BUILDING! DO NOT USE THE ELAVATORS DURING FIRE. Smoke is the greatest danger in a fire. If there is heavy smoke, stay low and near the floor.

8. If requested, help emergency crews.
9. DO NOT RETURN TO AN EVACUATED BUILDING unless directed by appropriate authorities.

NOTE: If you become trapped in a building during a fire and a window is available, place an article of clothing (shirt, coat, etc.) outside the window as a marker for rescue crews. If there isn't a window, stay near the floor, where the air is less toxic. Shout at regular intervals to alert emergency crews of your location. Do not panic.

**FIRES MUST BE REPORTED TO CAMPUS POLICE (938-4910), AFTER THE FIRE DEPARTMENT HAS BEEN CALLED.**

4. If outdoors, move quickly away from buildings, utility poles and other structures.
5. After initial shock, evaluate the situation and if emergency help is necessary call 9-1-1. Protect yourself at all times and be prepared for after shocks.
6. Turn off all potentially hazardous equipment such as gas and electric appliances. Damaged facilities should be reported to Facilities, Maintenance & Operations (938-4040 or 938-4484) if Campus Police was not called.
7. If necessary activate the building alarm system.
8. Evacuate the building by quickly walking to the nearest exit, alerting people as you go. Be aware of structural damage and assist both the disabled and injured.
9. **FLASH THE LIGHTS ON AND OFF** to alert deaf or hard of hearing students. Write notes to explain what is happening.
10. Once outside, move to a clear area at least 150-300 feet away from the affected building(s). Keep walkways clear of emergency vehicles.
11. To the best of your ability, and without re-entering the building, assist in determining that everyone has evacuated safely.

## **CIVIL DISTURBANCE OR DEMONSTRATIONS**

Most demonstrations such as marches, meetings, picketing, and rallies will be peaceful and non-obstructive. A demonstration should not be disrupted unless one or more of the following conditions exist as a result of the demonstration:

1. INTERFERENCE with the normal operation of the College
2. PREVENTION of access to offices, buildings, or College facilities
3. THREAT of physical harm to persons or damage to College facilities

If any of these conditions exist, the Long Beach Police must be notified and will be responsible for contacting and informing the Superintendent-President (or appropriate designee) and the Vice Superintendent-President, Student Services. of time may result in disciplinary action, including suspension or expulsion and/or the possible intervention of civil authorities (see Attachment A).

- (6) Efforts should be made to secure positive identification of demonstrators in violation to facilitate later testimony, including photographs if deemed advisable.
- (7) After consultation with the Superintendent-President and Police, the need for an injunction and intervention of civil authorities will be determined.
- (8) If determination is made to seek the intervention of civil authorities, the demonstrators should be so informed. Upon arrival of the Long Beach Police Department, the remaining demonstrators will be warned of the intention to arrest demonstrators in violation (see Attachment B).

6. **WHAT TO DO IF TAKEN HOSTAGE**
  - a. Be patient. Time is on your side. Avoid drastic action.
  - b. The initial 45 minutes are the most dangerous. Follow instructions, be alert, and stay alive. The captor is emotionally imbalanced. Don't make mistakes that could jeopardize your will being.
  - c. Don't speak unless spoken too and then only when necessary. Don't talk down to the captor who may be in an agitated state. Avoid appearing hostile. Maintain eye contact with the captor at all times if possible, but do not stare. If eye contact is impossible, use extreme caution. Treat the captor like royalty.
  - d. Try to rest. Avoid speculating. Comply with instructions as best you can. Avoid argument. Expect the unexpected.
  - e. Be observant. You may be released or escape. The personal safety of others may depend on your memory.
  - f. Be prepared to answer the police on the phone. Be patient, wait. Attempt to establish rapport with the captor. If medications, first aid, or restroom privileges are needed by anyone, say so. The captors in all probability do not want to harm persons known to be held by them. Such direct action further implicates the captor in additional offenses.

3. The Superintendent-President (or appropriate designee) and any other persons involved confer and decide on the appropriate action, which depends on the nature of the crisis.
4. All calls from the media are referred directly to the Superintendent-President (or appropriate designee.)
5. The Superintendent-President, Vice Presidents, and the Office for Public Relations should be given the complete facts so they can handle incoming calls from College Board Members, parents of students and/or others.

## **LOCKDOWN**

A lockdown may be instructed during situations such as the presence of a hostile or armed intruder inside a building. A lockdown requires locking doors, windows, and barricading oneself to block entry to a campus facility, a classroom, or to an office suite.

- Lock or barricade class and office doors.
- Close windows and window treatments.

- o Turn out the lights.
- o Instruct everyone to remain silent and not to go into hallways.
- o Crouch down in areas out of sight from doors and windows to conceal yourself as much as possible. Do not bunch together with others.
- o If you are in hallways during the emergency, seek shelter immediately in the nearest classroom or office suite.
- o If you are in outdoor areas, you should immediately take cover or seek shelter immediately.
- o Monitor official College emergency notification systems information for further instructions, or an "all clear" signal notifying you the threat is eliminated or it is safe.

These are general guidelines that will help you to remember what to do in the event of a Shelter in Place or Lockdown event on campus, but each situation may present unique challenges. The most important aspect in both a Shelter in Place and Lockdown event is to put effective barriers between you and the threat.

## **SHELTER IN PLACE**

You may be advised to "shelter in place" rather than evacuate your building during emergency situations such as large hazardous material releases or severe weather emergencies. The recommendation to shelter in place will be conveyed through official College notification systems.

- o Stay inside the building or go indoors as quickly as possible if you are working outside.
- o Close windows to provide tighter seal against chemicals vapors, smoke and/or fumes.
- o Locate supplies you may need such as food, water, radio, or flashlights if you have them.
- o In the event of a hazardous material release, turn off fans, air conditioning or ventilation systems, if you have control of these systems.
