Set Course Availability – Now called Visibility

Visible (formerly “Course Availability”)
By default, your course is hidden from students until you are ready. You can tell a course is hidden because the title of the course will be gray rather than red in your Courses listing. Students are not allowed to enter the course and will not see it.

1. Choose Edit Settings
   Go to Course Administration by going to the Settings Block and choosing "Edit settings."

2. Scroll down through the choices, and choose “Show,” as shown below.

3. Don’t forget to save changes.

Learn more about ALL of the Course Administration features by going to http://www.lbcc.edu/Moodle/topics.cfm > Edit Course Settings
