“The reading concepts help me because all the classes I have require a lot of reading.”

“Your strategies worked great for me— from an F student mostly through high school due to not understanding what I had just read to a comfortable and satisfying grade.”

“I just want to thank you for believing in me.”

“From Read 882 last semester I became a different person. It’s weird, and it seems crazy because I’m not used to it, but I like it at the same time. This stuff really works!”

“Before this class I would just read as fast as I could and nothing would stick. Now I prepare and pre-read, and it is much easier to remember.”
