

# Long Beach Community College District

Advanced Transportation Technology Center (ATTC)

Did you know that all CNG cylinders are required to have periodic safety inspections and proper records kept?

## “CNG Cylinder Safety Inspection and Certification”

Learn the regulations and proper required periodic inspection of cylinders used in Compressed Natural Gas vehicle applications. In this two-day class, designed for all technicians and management, inspection standards and techniques are covered along with acceptable damage and corrective actions. Notebook & study materials included in course fees. CSA Certification exam available through CSA America for an additional fee upon completion of the class.

**Date/Time:** February 14-15, 2012 8:00am-5:00pm  
May 9-10, 2012 8:00am-5:00pm

**Cost:** Fees: \$550 Includes all Training Materials.  
(Optional: CSA Exam fee not included)

Note: New CSA exam procedure effective March 2009

[http://www.csa-america.org/personnel\\_certification/cng\\_certification/](http://www.csa-america.org/personnel_certification/cng_certification/)

Exam is an additional \$375 fee which is applied directly through CSA America.

**Location:**
