

## Cal Grant “Qualifying Institution” Policy Change

This page has been created as an access point for prospective and current students to view licensing information and examination passage rates for graduates of undergraduate programs leading to employment for which passage of a California licensing examination is required. Assembly Bill (AB) 2086 amends Section 69432.7 of the California Education Code and requires Cal Grant participating institutions to provide information on where to access California license examination passage rates if this data is electronically available through the website of a California licensing or regulatory agency.

Gary Scott	Child Development		Comments: There is no licensing examination. State permits are issued on an educational basis, from the California State Teacher Credentialing office.
	Dietetic Service Supervisor		Comments: The DSS (29 unit certificate) is approved by the Cal Dept of Public Health - Licensing and Certification. They do not have a website for this type of information (pass rate, etc.) The State of California Department of Public Health - Licensing and Certification Division does not have a website that shows graduates of the DSS program.
	Dietetic Technician Program		The American Dietetic Association/Commission on Accreditation of Dietetic Accreditation does have pass rate information on their website <a href="http://www.eatright.org">www.eatright.org</a> . It is not broken down by college though - it is pass rates for Registered Dietitians in various types of pathway programs and then the Dietetic Technician. The State of CA does not.
