The employment of academic administrative staff is predicated on the premise that the highest quality personnel are essential to achieving the mission, goals and objectives of Long Beach City College. In addition, it is the policy of the District to employ administrators who will be sensitive to and effective in serving the needs of a diverse student population; as well as representative of the qualified workforce. In achieving these results, a method for recommending persons to the Board of Trustees has been developed which ensures consultation with faculty, managers, and other appropriate persons.
