Brand Guidelines Understanding, using and promoting our image.

LONG BEACH
CITY COLLEGE

An Introduction to the
Long Beach City College
Brand Guidelines

The Long Beach City College Brand is more than a Logo. It is a collection of important elements that create a unified image, tone and voice whenever we reach out to our diverse community. It not only shows school pride, but also sets us apart from other institutions. Which in turn, helps us excel in admissions, recruiting, fund raising and other areas.

This Brand was carefully developed by graphic design professionals, and is one of our most important and valuable assets. You are the keeper of the Brand. By following all of the guidelines in this book, you will help protect and strengthen Long Beach City College. In the pages that follow, you will learn how to use various elements of our Brand correctly.

If you have any questions, please contact PAM at communications@lbcc.edu

Table of Contents

Logo

The Logo is the sole identifier for Long Beach City College. In the next few pages you will find guidelines on how to use this identifier with proper spacing, color, and other branding elements such as department identifiers and taglines.

Preferred Logo (Vertical Format)

Alternate Logo (Horizontal Format)

Incorrect Logo Usage

To maintain brand consistency, the proportions of the Logo should never be modified or distorted. In some special instances the Logo Mark may be used alone. If you have any questions, please contact PAM at communications@lbcc.edu

Approved Color Usage

- Two-color – Pantone® 485 *(red)* and Process Black
- One-color – Pantone® 485 *(red)* or Process Black

- Two-color Logo with reversed text –
  "Logo Symbol" in Pantone® 485,
  "Logo Type" always white
  (see "Red and Black Logo on Black Background" below for specific guidelines).

- Reversed – White reverse from a dark background
  (see reversed Logo sample for specific guidelines)

Reversed Logo

Solid Black　　　　　35% Black Minimum Density

To properly support the Long Beach City College Logo in its reversed state, the background must match a visual density of 35% black.

35% Black	35% Blue

Note how the denser black appears darker at 35% compared to the blue. In order for us to match the blue density to the 35% black density, we need to increase the percentage of blue.
35% Black	55% Blue

The 55% blue matches the density of the 35% black and supports the reversed lettering sufficiently

Unit of Measure

In order to establish a consistent "Unit of Measure," the letter "E" in the Logotype "City College" is used to determine distance for all measurements. See below for the method of finding the "Unit of Measure."

Logo Elements and Unit of Measure

Unit of Measure = The Letter "E" in "City College"

This guide will use the "E" in the Logotype "City College" as the "Unit of Measure" for all guidelines pertaining to "Distance." Guidelines will either reference the WIDTH of the "E" or the HEIGHT of the "E" for all measurements.

Logo Minimum Clear Space

To create maximum impact, the Logo requires specific clear space around all sides. This clear space should be free of imagery, graphics, folds or any other element that may interfere with the clarity of the brand. To find the Minimum Clear Space for the Logo, use the letter "E" in the name "City College" after you scaled the Logo to the size you intend to use for reproduction.

Vertical Logo

Logo requires a Minimum Clear Space equal to 3x the Height of the "E" in City College.

Department Logo

Branding is about creating one voice/one face, therefore, varying identities is not only counter to our objectives, but is also confusing for the public. Each group is represented with placement of its name in a specified body of type beneath the Logo as shown on the following page.

Specific colleges, schools, departments and offices should not print individual "Logos" in lieu of, or in addition to, the Long Beach City College Logo with Departmental Name described below.

The Office of Community Relations and Marketing must approve all versions of the logo created for Long Beach City College entities, and can create a color logo for you upon request when appropriate.
If you have any questions, please contact PAM at communications@lbcc.edu

Department Logo Usage

Department Name Usage Do's and Dont's:

- In standard capitalization only
- Should never appear smaller than 7 point, nor extend beyond the line length of "Long Beach"
- Alignment is centered to "Long Beach"
- Only use Helvetica Neue with Kerning and Tracking set to ZERO and Leading set to AUTO. Do Not Apply Custom Kerning or Tracking Values when typesetting the Department Name.
- Prints only in Black

Departmental Name Added to Vertical Logo

Distance from baseline of City College to the cap height of the Tagline is 2x the HEIGHT of the "E" in the Logo Type "City College".

Department names should be the same size as the letter "E" in "City College". Department names should not extend beyond the "L" and the "H" in "Long Beach". If the department name extends beyond the "L" and the "H" in "Long Beach" than a line break should occur in the name with the leading set to "Auto".

Horizontal Logo with Department Name

Minimum Reproduction Size

A minimum size has been established to maintain detail and legibility.
The Logotype should never be less than .75″ and when using the Logo
with the Tagline or Department Name, the Logotype should never be
less than 1 inch.

Minimum Logo Size

**3/4 (.75)″

Brand Fonts

The Long Beach City College Brand includes the use of complementary typefaces. Using any weight of and italicizing the following font families is approved.

Helvetica Neue LT STD

Helvetica Neue Fonts are primarily used for headlines, text, subheads and graphic elements for more informal print pieces (collateral, advertising, etc.).

Helvetica Neue LT STD Light
ABCDEFGHIJKLMNOPQRSTUVWXYZ
abcdefghijklmnopqrstuvwxyz
1234567890

Substituting Fonts

When using programs in which approved fonts are not available (word processing programs or other non-graphic computer programs), Times can be used to substitute Adobe Garamond and Arial can be used to substitute Helvetica Neue.

Arial True Type Mono (Web Font)

Due to limitations in end-user configurations, Arial is the recommended font for both HTML headlines and text. All other approved fonts may be used in graphic form.

Additional notes on Arial. There are multiple font foundries who all have their own version of Arial. The version below is from the MonoType Typography font foundry. Your computer might not have this exact version though it should be very similar.

Positioning Statement Introduction

The Positioning Statement should quickly and concisely say who you are, and what you want to be known for. It should help to position you competitively with differentiating qualities.

The audience for this statement is not just prospective and current students; it's also members of the business community, employees, alumni, donors, and others.

LBCC's Positioning Statement is a platform that has a range of applications.

Positioning Statement Usage:

• May appear at the end of all press releases;
• Be included in speeches by the President and others;
• Be used to describe LBCC in college listings;
• Be included in collateral such as LBCC's college catalog and class schedule.

Positioning Statement

Long Beach City College educates students to reach their personal and professional goals by providing rewarding career pathways. By offering exceptional value and support, it also engages our diverse community with outstanding programs, and empowers graduates to strengthen our economy and community.

Stationery

Long Beach City College will continue to promote its brand in a professional manner through its Stationery Collection, which includes Letterhead, Business Envelopes, Business Cards, and a Facsimile Template. Business Cards are the only item within the Stationery Collection that will have an opportunity to be customized with the individual's name and title only.

Paper Recommendation

The Classic Crest® Avon Brilliant White is recommended for Long Beach City College stationery. The various weights and finishes can also be used for collateral such as folders, brochures, note cards, formal invitations and programs.
