For graduation with a **Certificate of Accomplishment**:

1. Complete the required units with a minimum grade point average of 2.0 ("C" average).
2. Fifty percent (50%) or more of the required must be completed in residence at LBCC.
3. Complete and submit the certificate application form to the Admissions and Records office during your final semester of course work. These forms are available in the Admissions and Records office, or online at <http://admissions.lbcc.edu/>.

Program Mission and Outcomes

Mission Statement for Certificate of Accomplishment, Shielded Metal Arc Welding (SMAW):

The Welding Technology Certificate of Accomplishment in Shielded Metal Arc Welding (SMAW) is for those interested in welding structural steel. Course work includes a comprehensive study with an emphasis on application of fundamental welding techniques and safe industry practices.

Outcomes:

- Demonstrate advanced level skills to produce quality welds in the flat, horizontal, vertical, and overhead positions using the SMAW (Shielded Metal Arc Welding) process.

Mission Statement for Certificate of Accomplishment, Advanced Arc Welding (SMAW and FCAW):

The Welding Technology Certificate of Accomplishment in Advanced Arc Welding will emphasize advance welding skills in the SMAW (Shielded Metal Arc Welding) and FCAW (Flux Core Arc Welding) processes. Course work includes a comprehensive study with an emphasis on application of fundamental welding techniques and safe industry practices.

Outcomes:

- Demonstrate advanced level skills to produce quality welds in the flat, horizontal, vertical, and overhead positions using various arc-welding processes.

Mission Statement for Certificate of Accomplishment, Gas Tungsten:

The Welding Technology Certificate of Accomplishment in Gas Tungsten Arc Welding (GTAW) is for those interested in entry-level welding skills to required GTAW Aluminum, low carbon, and stainless steels. Course work includes a comprehensive study with an emphasis on application of fundamental welding techniques and safe industry practices.

Outcomes:

- Demonstrate advanced level skills to produce quality welds in the flat, horizontal, and vertical positions using the GTAW (Gas Tungsten Welding) process.
