Students can earn an Associate Degree for Transfer to receive a guaranteed transfer spot within the California State University system to earn a Bachelor's degree in Spanish. Courses are UC and CSU transferable.

BEYOND THE CLASSROOM

LBCC's World Languages Department has student-led clubs that offer opportunities for students to engage in cultural and social activities related to their language of study. The French, Japanese and Spanish Clubs meet regularly to plan activities, volunteer and build community. The clubs also encourage students to develop leadership skills.
