Exciting Electrical Technology

Students are prepared for entry-level employment in numerous electrical and electrical-related trades. LBCC has a long-standing reputation for training the best in the business. The program teaches the fundamentals along with robotics technology, blueprint reading, traffic signal systems and more.

www.LBCC.edu/Electrical

Focus on Fashion

LBCC is located in one of the country’s largest fashion hubs where trendsetters, influencers, and celebrities embrace innovations by LA fashion designers in premium denim, swimwear, and active apparel. A fashion education can provide the necessary background and skills for a career in this ever-thriving and dynamic field. The LBCC Fashion Design program provides an environment that promotes critical thinking, creativity, multicultural awareness, sustainable practices, hands-on learning, work experience and networking.

www.LBCC.edu/fashion

Working with Web Design

LBCC is proud to offer classes to provide you with real-world project-based learning opportunities. Start your career in positions such as: web designer, junior web developer, web content specialist, WordPress developer, PHP (back end) developer, JavaScript developer, full-stack developer, database developer or web application developer.

www.LBCC.edu/webdevelopment

Here is a small sample of some of the amazing CTE programs LBCC offers.

Long Beach City College has several Career Technical Education (CTE) programs offered during the LBCC 2021 Fall Semester that can help you start a new career or help you advance in your current one.

- Where labor demand is high, LBCC has programs to help train for that field.
- Earn industry certifications that will help you land entry-level positions that could pay the costs of attending a four-year degree.
- Pursue a degree or certificate program in CTE and still transfer to a university!

Some programs require as little as three classes. Some programs take two years. All of LBCC’s CTE classes are taught by expert faculty with years of experience. Many industries are looking for these highly-skilled graduates where labor demand is high.
Tuition Free
Adult Education Classes

These classes are open year-round to members of the community for personal and professional development. One only needs to live in California and be 18 years or older to take advantage of this program. Explore the following programs and courses offered at LBCC tuition FREE!

Automotive Technology
These classes provide students with new insights in automotive technology, hands-on experience and an overview of industry requirements needed for a career. The program offers automotive industry certifications in NCS/ Snap-On Tools and prepares students to pass the ASE Certification Exam.

Basic Skills Development
These courses are designed to assist students in acquiring the knowledge and skills necessary for college and career readiness. Students will participate in a self-paced, flexible, open-entry and exit courses that provide structured and supportive instruction.

Cake Decoration
Students will learn a variety of cake decorating techniques, including creating special effects, candy molds, novelties, and international styles for personal or professional use. The course will also teach recipes, tools and skill development, as well as business practices including delivery and set up techniques.

Counseling and Student Development
This program prepares students to work through challenging academic areas and develop plans for success in college. Students will learn strategies to improve academic performance and appraise learning strengths and weaknesses through assessment and analysis of results.

Fashion
Students learn discipline specific skills to communicate effectively, think critically, and possess the knowledge of technology essential to employment in design related occupations within the fashion industry or the requisite foundation for transfer to a 4-year college or university.

Forklift Operator Certification
This 4-session course will provide basic lifting principles, equipment safety, load rating, stability and operation techniques. Upon completion, students will be certified as an industrial Truck Operator. The program meets all OSHA regulatory requirements and standards for the safe operation of forklift trucks. Courses are offered in English and Spanish.

Foundational Skills
This program prepares students for academic success through increased knowledge of language arts and skills for the workplace and future educational opportunities.

General Educational Development (GED) Prep
This program prepares students for the GED test by developing their knowledge of language arts, social studies, math, and science.

Home Remodeling
These courses teach students how to drywall, tile and paint for both home improvement projects and a career. Students will learn planning, budgeting, preparing, implementing and finishing of a wide range of home improvement projects.

Library Technician
This course prepares students for employment as paraprofessional library technicians, library assistants, and other library support staff. Students will receive the theory and practical experience needed to earn employment in school, public, special and academic libraries, as well as other related information settings.

Money Management
These courses prepare students in financial literacy including budgeting, saving, debt, credit, as well as investing options for education, housing, and transportation.

English as a Second Language (ESL)
A variety of courses and certificates of competency are available for adults seeking to learn English as a Second Language (ESL) including preparation for the U.S. Citizenship test.

Library Technician
This course prepares students for employment as paraprofessional library technicians, library assistants, and other library support staff. Students will receive the theory and practical experience needed to earn employment in school, public, special and academic libraries, as well as other related information settings.

Foundational Skills
This program prepares students for academic success through increased knowledge of language arts and skills for the workplace and future educational opportunities.

Introduction to the Cannabis Industry

This new eight-week course covers all sectors of the cannabis industry—from cultivation to retail—for both students new to the cannabis industry and seasoned professionals, enhancing their understanding of the industry today, including its heavy regulation. Students will also benefit from the course’s regional focus, with an overview of the history of cannabis in California and the state’s track-and-trace system for cannabis products from plants to consumers’ hands.

While this course does not provide job placement services, the content has been designed by industry professionals who understand the skills and knowledge needed to work in the cannabis industry and enhance marketability. Developed and taught by cannabis industry leaders, the course extensively covers the cannabis industry as overseen statewide by the Bureau of Cannabis Control (BCC) and locally under area-specific municipal ordinances.

This course covers all sectors of the industry from cultivation to retail. It was developed in partnership with the Long Beach Collective Association.

For more information go to the LBCC at https://thelbca.com/ or log onto the LBCC website at www.LBCC.edu/Intro-Cannabis-Industry

The Port of Long Beach Maritime Center of Excellence at Long Beach City College

The Port of Long Beach Maritime Center of Excellence at Long Beach City College was established in 2019. In 2021, it was designated a Center of Excellence for Domestic Maritime Workforce Training and Education (CGE) by the U.S. Department of Transportation’s Maritime Administration (MARAD). LBCC is one of 27 community colleges and training institutions nationwide that prepare students for careers in the maritime industry.

The Port of Long Beach Maritime Center of Excellence at LBCC is always seeking those interested in careers in the global logistics and supply chain industries.

The Maritime Center of Excellence offers short term not-for-credit training and industry certifications, and nearly 200 students have completed the program to date.

The training programs focus on in-demand occupations, such as:

- Customer Service Representative
- Logistics Manager
- Logistics Specialist
- Warehouse and Distribution Supervisor
- Dispatcher
- Transportation Supervisor

These short-term and highly intensive training programs are between 30 and 80 hours each and prepare individuals with general work and business experience to enter the goods movement sector. Training takes place in the evenings and on weekends to accommodate work schedules.

Scholarship Opportunity!

The Maritime Center of Excellence Scholarship was established to help students prepare for in-demand occupations in the supply chain and logistics industry. Scholarship amounts vary, depending on the financial need expressed.

For more information about the initiative or scholarship opportunity, contact the Workforce Development Office.

As LBCC begins reopening from the COVID-19 closure, LBCC’s free English as a Second Language (ESL) classes are still being offered—but in an online-only format for the Fall 2021 Semester.

These noncredit classes are open to people of all skill levels as a way to improve speaking and/or reading and writing in English.

These reading skills courses are designed to teach ESL students how to read, comprehend what they read and build vocabulary. They also teach students how to read and understand sentences, paragraphs and passages without the assistance of a dictionary.

English for Everyday

Courses in the basics of English structure are designed to bring students up to basic college level in the language. Students will be prepared for success in academic and vocational programs offered by the college. Emphasis is on the mastery of productive grammatical features and on comprehension of spoken and written standard North American English.

For the Fall 2021 Semester, the ESL Office is assisting the students remotely to complete the application for admissions online, to retrieve student ID, to enroll in classes and to apply for non-credit certificates. The office also provides guidance on how to reset the school password, how to access the Viking portal and to how access Canvas for online instruction.

Contact LBCC’s ESL office with questions:

Free English as a Second Language (ESL)

During the crisis of health public due to COVID-19, Long Beach City College (LBCC) has taken measures to protect its students, employees and the community in general. In this moment, the school is open by the mayor part cerrada, sin embargo, estamos abriendo poco a poco. Este verano hay tres clases “en persona,” y además el ESL Learning Center está abierto ahora con un horario completo de cuatro días a la semana y con todos sus servicios. Si necesita ayuda para matricularse, la oficina de ESL está abierta solo los miércoles de 9:00am-1:00pm en LL211 y los cuatro días de la semana también brinda sus servicios por Internet. Para oficina estamos abriendo más clases en personal. Las clases de ESL en otoño comienzan el 30 de Agosto, el 27 de Septiembre y 25 de Octubre de 2021.

Estamos comprometidos a continuar brindando servicios a los estudiantes de ESL mientras LBCC permanece cerrado. La Oficina de ESL está ofreciendo los Servicios al Estudiante y las Clases de ESL a distancia en la semana y en persona. La Oficina de ESL continúa ayudando a los estudiantes de forma remota con los siguientes servicios:

- Completar la solicitud de admisión en línea.
- Recuperar el número de identificación de estudiante.
- Registrar en las clases de ESL.
- Solicitar certificados de las clases de ESL.
- Gular a los estudiantes sobre cómo crear la contraseña de la escuela, cómo ingresar al portal Viking y cómo ingresar a Canvas para la instrucción en línea.

El programa de ESL ofrece clases GRATUITAS y clases con Unidades. Si necesita ayuda, contáctenos de la siguiente manera. Por teléfono al (562) 938-3037 o correo electrónico dd140-esl@LBCC.edu.

Fall 2021
Return to Campus Information
Long Beach City College has been closed to the public for more than a year due to COVID-19. During this time, LBCC was able to offer 10% of classes on campus and in person while adhering to public health orders. This has allowed LBCC to develop best practices ensuring students, faculty, and staff are safe. For the Fall 2021 Semester, the College will begin the process of reopening in-person student services as well as offering approximately 40% in-person classes, limited to 50% capacity. LBCC will continue to offer online and hybrid classes with the goal of returning to pre-COVID-19 operations for the Spring 2022 Semester.

For the Fall Semester, all activities on campus, including in-person classes, will continue to be in alignment with regional and local public health orders and practice all of the standard COVID-19 safety protocols that LBCC has implemented during the pandemic.

For current information about how Long Beach City College is making strategic plans to safely return students, faculty, and staff back to campus after the COVID-19 closure, please visit the new LBCC Return to Campus website at www.LBCC.edu/return-campus.

About Online Learning
LBCC offers a convenient way for you to learn. Take a class from virtually anywhere! Online classes range from Principles of Accounting to Fundamentals of Writing. To view a list of online classes offered at LBCC, please visit our class schedule at www.LBCC.edu and click on the “WEB” tab.

When you register for classes at www.LBCC.edu, the teaching format, whether for in-person or online learning, will be indicated in the class schedule.

Online classes will be either Asynchronous or Synchronous. Here’s what that means:

- **Asynchronous** - There are no required meetings in real-time; no meeting days or times are listed in the schedule. Asynchronous classes will be noted in the class schedule by the days and time being “Web” and the location being “Online.”

- **Synchronous** - There are required meetings in real-time; meeting day and time patterns are in the schedule. Some instructors may use a combination of scheduled “real time” meetings (synchronous) and online work accessed at the students’ chosen time (asynchronous meetings), but the required meetings are regularly scheduled and shown in the class schedule.
