Best Practices - Office 365

You will have access to Office 365 while you are an active.

You should always keep a backup of your files on a personal device.

While editing your files, be aware if you are editing in the browser or in the application.

Editing online vs. in Word, Excel, PowerPoint, etc.

Use caution when saving your work. Be sure you are saving your files to the location intended.

(Personal Device vs. OneDrive)
