WHAT IS NONCREDIT?

A noncredit course is one that is approved by the college and district as meeting the needs of enrolled students but that does not award college credit and does not go on a transcript. Noncredit courses are designed to lead to improved language skills for non-native speakers, to prepare for citizenship, to retool job skills, and/or to improve basic skills. Noncredit education programs may lead to:

- Greater employability and/or job opportunity
- A Certificate of Competency or Certificate of Completion
- Preparation for credit bearing courses that may lead to completion of a Certificate of Accomplishment or Certificate of Achievement
- Prepares students to complete credit courses that lead to an Associate Degree, or transfer to a 4-year higher education institution (such as Cal State Long Beach)

What does it mean to be enrolled in a “combined class” of credit and noncredit?

There are distinct differences between credit and noncredit courses as illustrated in the grid below. Once you have enrolled in a credit or noncredit course, you cannot change from one to the other without dropping and enrolling. Students must pay for credit courses; noncredit courses have no associated enrollment fees.*
