2006.1 The Superintendent-President shall administer these regulations.

2006.2 The Long Beach Community College District defines participation in governance as a collaborative college-wide process dependent on trust and open communication. Participation in college governance, as provided for in Title 5 of the California Code of Regulations and college policies and administrative regulations acknowledge the special roles of faculty, classified staff, and students. Nothing in this regulation impinges upon collective bargaining units participating per their individual contracts. The essential activities of the college decision-making process are policy and regulation development and college planning, implementation, and review. College planning is used to determine college commitments and the annual budget. The results of the college decision-making processes are regularly reviewed.

2006.3 Each college group involved in the shared governance process is responsible for communication. Communication entails providing rationales for proposals made and reporting to constituents. These college groups are accountable for communicating their proposals for input prior to finalization.

2006.4 Participation in governance is predicated upon the sincere commitment of all participants. Participation in governance is made a reality through the process that includes shared planning, justified and thoughtful recommendations, and delegating responsibilities to appropriate areas, realizing the Board has final decision-making authority and ultimate legal responsibility.

2006.5 The Board recognizes the Academic Senate as the body which represents the faculty in collegial governance relating to academic and professional matters as defined in Title 5 of the California Code of Regulations.

The Board recognizes the Associated Student Body as the body which represents students in collegial governance relating to student matters as defined in Title 5 of the California Code of Regulations.

The Associated Student Body Cabinet or designee shall retain the responsibility of appointing student participants to serve on committees where shared governance is involved.

The Board recognizes the Classified Senate as the constituent group in collegial governance. The Board recognizes the Classified Union as the group representing classified staff in all issues related to contract and working conditions.
Administrators, managers, and confidencials are represented by individuals appointed from the President’s Cabinet.
